

Christian

TCC is the only public policy organization that is both explicitly Christian and transatlantic. We are not generically “faith-based” or “religious,” but intentionally Christian as we work to preserve those achievements that arose from the West’s Christian heritage. As a transatlantic organization, TCC speaks to the fact that Europe and North America stand or fall together. We share the same Judeo-Christian heritage and exemplify that heritage to the world. We unavoidably exert a tremendous influence on each other for good or evil.

For Life, Family and Freedom at UN, EU and OSCE and Strengthening Transatlantic Ties will build on TCC’s strong foundations through activities that will advance key truths and principles in Europe, America and around the world. We would very much welcome your gift or participation in the **TCC Business Network** in this effort.

Plan and Focus

We will use our consultative status at international organizations such as the UN, EU and OCSE to strengthen the protection of classical freedoms and reverse the onslaught of fanatical secularism.

We will **focus** on:

- Amending international human rights declarations and agreements to strengthen protection for the traditional family, marriage, parental rights and the right to life;
- Lobbying member nations to vote against measures that would promote militant secularism and undermine the Christian view of the human person;
- Helping developing nations to resist political and financial blackmail by Europeans and North Americans aimed at forcing them to accept their secularist agenda;
- Shining a light on the attempts of politicized monitoring committees that re-interpret international agreements to conform to the secularist agenda.

We will, as indispensable allies, strengthen Transatlantic ties in various ways in order to sustain and preserve freedom, justice and security.

We will **focus** on:

- Emphasizing on Life, Family and Freedom from a Christian perspective in Transatlantic debate and policy including security/NATO 2% GDP to defense;
- Lobbying and working together with like-minded officeholders and agenda setters both in the political and civil society world, such as Secretaries, Members of Congress, Corps Diplomatique, European and National Parliaments, civil society organizations and other relevant stakeholders (media, civil servants, ...)
- Strengthening Dutch-American ties and building relations between like-minded (Christian) schools, business people, legal associations, etc. by visits and exchanges of views.

About TCC

The TCC works to develop a transatlantic public policy network of North American and European Christians and conservatives in order to promote the civic good, as understood within the Judeo-Christian tradition. We seek to protect the greatest achievements of our political systems – limited government, individual liberty, religious freedom, freedom of education, and the family as the foundational building block of society – by influencing policy on both sides of the Atlantic.
